THE EXHIBIT

Come face to face with over 160 Greek and Roman treasures from the National Museums in Berlin's celebrated collection of classical antiquities. These marble statues and reliefs, bronze statuettes, terracotta vases, and jewellery span centuries, dating from the seventh century BC to the second century AD. Bringing to life two ancient civilizations, the art included in *Olympus* is directly linked to the heartbeat of modern culture, from architecture, language, and law to medicine, sport, and theatre. Learn about the fascinating world of Greek and Roman mythology, and meet the Olympian gods: Zeus, Venus, Athena, and more. As one of only two stops in North America, *Olympus* is Manitoba's first major exhibition of classical antiquities in over half a century.
